DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 20 is rejected under 35 U.S.C. 102(b) as being anticipated by Nakayama (US Patent No. 5453684). Nakayama discloses the same invention as claimed: ~~21~~. A position detecting method of adjusting gains and offsets of at least two phases of position detecting signals ...are adjusted, comprising: a first step of making the adjustment data... stored; and a second step of performing the gain and offset adjustment... after the first step (see col. 4, lines 7-12).

Allowable Subject Matter

-Claims 1-19 are allowed.

-Claim 21 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
